<b>SPECIAL EFFECTS:</b>		
FLICKER 2 DIGITAL - 1 CHANNEL - 2k	\$	65.00
<p>A single channel flicker unit with 2,000w output capability. Sixteen selectable programs in an integrated circuit memory provides automatic random or regular changing light. Operates as dimmer only without flicker effect if desired. Interface Output DIRECTLY DRIVES our 6k and 12k dimmers.</p>		
"SHADOWMAKER" FLICKER GENERATOR - 3 CHANNEL - 6k	\$	130.00
<p>This unit features 3 completely isolated 20 amp dimmer circuits wired to 3 standard U-ground type sockets. Each circuit can be used independently as either a dimmer, flicker generator or a chaser/tracer. Sixteen programs including firelight, candles, TV sets, movie screens, lightning storms, as well as several chaser/tracer variations, are actual digitized events contained in solid state memory providing up to 30 minutes of non-repeating effects. The 3 Interface Output connectors will DIRECTLY DRIVE our 6k and 12k dimmers.</p>
